EDUCATION

Nitte Meenakshi Institute of Technology
2019-2023
Bangalore, India
BE: Civil Engineering
GPA : 7.65

IP & AWARDS

- German Patent Granted for Alternative Sustainable Material for Single-Use Plastic, focused on developing eco-friendly material solutions to reduce plastic waste and support sustainable practices.

- Awarded by Council of Scientific & Industrial Research – Structural Engineering Research Centre (CSIR-SERC) Chennai during the One Week One Lab Campaign conducted under India's G20 Presidency Initiative.

SUMMARY

I am a **Civil Engineer and Retail Designer** who operates at the absolute intersection of engineering, design, and intellectual innovation. Based in Bangalore, I have spent the last 2.5+ years bringing spaces to life for marquee brands, managing the entire pipeline across space planning, layout development, 3D visualisation, BOQ preparation, and hands-on site QC and execution. More than an engineer or designer, I am an expansive, lateral thinker driven by intense intellectual curiosity. Validated by a **Council of Scientific and Industrial Research (CSIR) award** and a **Registered German Utility Model (DPMA)**.

EXPERIENCE

DO MORE DESIGN PVT LTD

Retail Desginer/ Oct 2025 - present

- Developed and adapted retail/interior designs from brand language into 2D layouts and 3D models for Aditya Birla Group brands, VOX, Sureena chowdhri, The Bear House, Sleepwell & Furlenco.
- Produced GFC/construction drawings, façade studies and design documentation using AutoCAD & SketchUp, translating 3D design intent into execution-ready details.
- Coordinated MEP, site conditions, materials and design revisions with clients, consultants, vendors, mall teams and site execution teams.
- Prepared BOQs, quantities and specifications, supporting procurement, budgeting and project execution.
- Developed site-specific technical and engineering solutions across 40+ retail stores, adapting design, services and construction details to existing site constraints while maintaining brand standards and execution feasibility.
